SUMMARY

Final-year Computer Science Engineering student skilled in full-stack development using Java, Spring Boot, React, JavaScript, and MySQL. Experienced in building responsive web applications and RESTful APIs with a focus on clean, scalable solutions. Seeking an entry-level Full Stack Developer role to contribute to innovative software development.

EDUCATION

Bachelor of engineering in computer science and engineering

Jun 2022-Jul 2026

Shri Madhwa Vadiraja institute of technology and management Bantakal.

Achieved a CGPA of 9.06, reflecting consistent academic excellence.

Oct 2020- Apr 2022

2 PUC

Poornaprajna PU College Udupi.

Obtained 96% in PCMB.

INTERSHIPS

UniCourt India (Mangalore Infotech Solutions Pvt. Ltd.)

Aug 2025-Nov 2025

Quality Assurance Intern

Darshai Group Pvt.Ltd

Mar 2026-May 2026

AI and Automation Intern

PROJECTS

File Sharing System

- Developed a secure file sharing system using React, Node.js, Express, MongoDB, and Firebase, enabling real-time transfer of any file type with single-use, time-limited links and QR code access.
- Implemented robust authentication/authorization and "Send Once" feature, expiring links within 10-15 minutes for enhanced privacy. Improved performance by ~20% through optimized backend processing and efficient file handling.

Crop Yield Prediction Using Satellite Images

- Developed a crop yield prediction system using satellite-based NDVI images and historical weather data to forecast crop yield for different regions and crops, enabling data-driven agricultural decision-making. Achieved $R^2 = 0.98$ and high predictive accuracy, demonstrating the model's robustness and reliability.
- Tech Stack: Python, Deep Learning (CNN, LSTM), Satellite/NDVI Imagery, TensorFlow/Keras.

ADDITIONAL INFORMATION

- Technical Skills:** Node.js, Express.js, HTML, CSS, JavaScript, Java,React.js,Spring Boot,Python,MySQL, MongoDB, Git, RESTful APIs, Postman.
- Languages: English, Kannada,Tamil.
- Awards/Activities:** Cleared GATE 2025 in the first attempt.
- Awarded KSCST Project Grant (2025-26) for the project "Crop Yield Prediction Using NDVI and Deep Learning Techniques"
- Secured 2nd Prize in Paper Presentation on "Optimizing Crop Yield with Light-Assisted Plantation Technology."
- Recognized for strong leadership and confident communication skills.
